With an unexpected death — you don't want to leave behind financial obligations. Universal Life Insurance from Allstate Benefits can help your family realize the goals and dreams you shared together, and builds cash value you can draw on while still alive.

#### Here's How It Works

- Select the coverage that's right for you and your family\*
- Then if you pass away, your beneficiary files a claim
- A lump-sum cash benefit is direct deposited or a check is mailed and can be used however they wish

#### Protecting Your Finances

With planning, the death benefit can pass to your beneficiaries free from state or federal estate taxes. Consult with your tax advisor for specifics\*\*

#### Meeting Your Needs

- You choose the death benefit amount to leave behind
- Tax benefits, withdrawals and loans are available\*\*
- Spouse and child(ren) may be covered\*\*\*
- Premiums are affordable and can be conveniently payroll deducted<sup>^</sup>

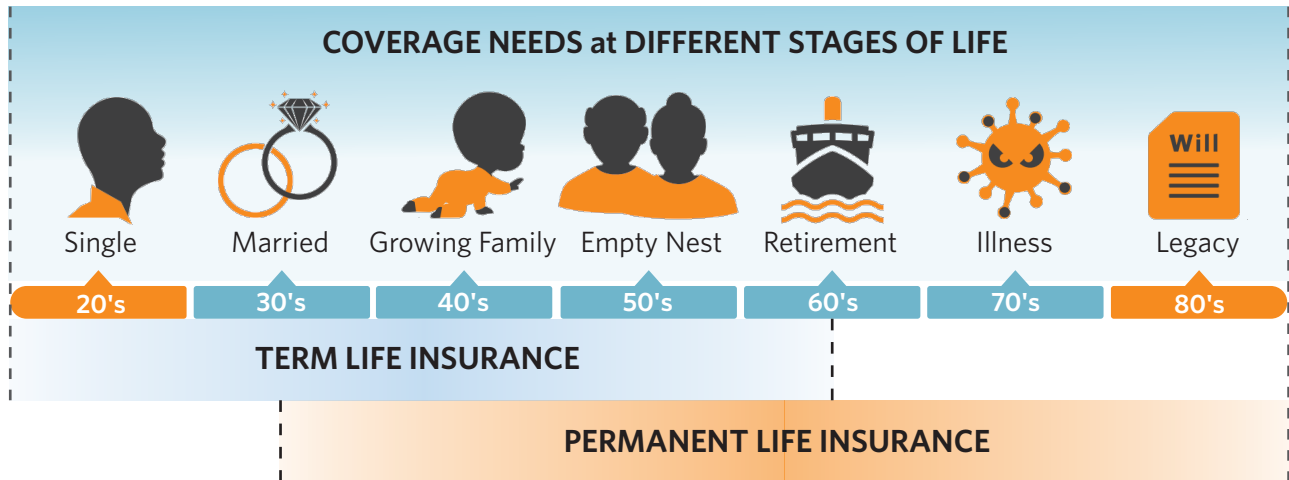

<sup>†</sup>2021 Insurance Barometer Report, LIMRA. \*You may be required to answer health questions at enrollment. Coverage may be available with reduced underwriting through your employer during your initial enrollment period. If you enroll after your initial enrollment period, answers to health questions are required. \*\*Penalties and taxes may affect your decision. Partial withdrawals, surrenders, non-qualified additional benefit rider charges and loans from life insurance policies may be subject to ordinary income taxes and possibly an additional 10% federal tax penalty. Outstanding loan balances and withdrawals generally reduce the death benefit and cash value. \*\*\*Coverage for spouse and child(ren) may be limited to a percentage of the employee's face amount in some states. ^This is a flexible premium adjustable life insurance product with non-guaranteed elements. Premiums may need to be increased to maintain coverage to maturity (age 95).

There are moments in life that cause us to think about how our loved ones would make ends meet, if we died unexpectedly and their financial support was reduced.

## Coverage for all stages of life

As people move through the stages of life, certain factors dictate the type of life insurance they need. During working years, an employer may provide Term Life insurance, but the wraparound coverage of our Group Universal Life product can help give peace of mind because the money you spent builds cash value that you can use later in life or add to the term benefit payout. The graph below illustrates the need for term and permanent life insurance throughout the various stages of life.

## Here are some of the ways the cash benefits can be used

**Finances**

Can help protect HSAs, savings, retirement plans and 401(k)s from being depleted

**Home**

Your beneficiary can use the cash benefits to help pay the mortgage, continue rental payments, or perform needed home repairs

**Expenses**

Can help pay your family's living expenses such as bills, electricity, and gas

The examples above detail fictional thought processes and needs; your individual needs and reasons for coverage may vary.

## Prepare for the future today

Review and check some or all that apply.

- You're the primary wage earner and your family would have trouble living comfortably without your income
- You have regular debts, like mortgage, car payment or credit cards
- You have children under 18
- You want flexible coverage that can change with your needs
- You'd like to supplement your retirement income in later years

## Here's how Group Universal Life works

Premium payments are deducted from your paycheck and added to the fund value. Each month, expenses and cost of insurance charges are deducted from the fund value and any excess in the fund continues to earn interest at a rate of at least 3% per year. Interest is not taxed as income until it is withdrawn.

### Fund value and premium payments

As you continue to pay your premium, your fund value may grow over time. Monthly premiums are flexible, meaning you can choose to pay as much or as little as you can afford, subject to policy minimums and maximums. Premiums may need to be increased to maintain coverage to maturity (age 95).
